summary

910 Corbett Avenue San Francisco, CA 94131

I am a 2014 MS Analytics candidate at the University of San Francisco. My passion is to uncover compelling stories, and I believe that inspired utilization of data is the best way to bring meaningful stories to light. I aspire to craft profound insights through the inventive use of analytics.

Python SQL SAS

2013-2014 **University of San Francisco**

MS in Analytics

Expected

2008-2011 **Rice University**

BA in Cognitive Sciences (neuroscience concentration)

BA in Psychology GPA 3.5 / 4.0

interests

data design stories cartography

experience

2013 AutoGrid

> Used Pandas and R to munge large volumes of smart-meter data. Built timeseries and cross-sectional models to identify outliers and make forecasts. Produced several interactive tools and maps for exploring the raw data.

2011-2013 Stanford Center for Interdisciplinary Brain Sciences

San Francisco, CA

Houston, TX

Conducted MRI studies to investigate biomarkers of pediatric bipolar disorder in at-risk patients, ages 8-20. Operated MRI scanners and analyze structural and functional neuroimaging data using Matlab and R. Performed exploratory and hypothesis-driven analysis of large multi-modal data. Presented findings at the 2012 American Academy of Adolescent and Child Psychiatry Conference.

2012 **Examkrackers** course instructor

Taught MCAT-level physics, chemistry, biology, organic chemistry, and verbal reasoning to a class of ~12 students.

2009-2011 **Baylor College of Medicine Computational Psychiatry Unit**

Conducted fMRI studies with patient populations suffering from PTSD or drug dependency. Analyzed functional neuroimaging data using MATLAB. Investigated the relationship between affective phenotypes, including resilience, and neural response to emotional stimuli, and presented research findings at the

2010 Society for Neuroscience convention.

2010-2011 Rice Emergency Medical Services emergency medical technician

Responded to traumatic and medical emergencies on the Rice University campus with appropriate patient care / transport. Served weekly 12 hour shifts and completed a minimum of 24 hours per semester volunteering for outside EMS

services in the greater Houston area
